

Interim Management Report of Fund Performance

for the period ended February 28, 2019

All figures are reported in Canadian dollars unless otherwise noted.

This interim management report of fund performance contains financial highlights but does not contain either the complete interim or annual financial statements of the investment fund. If you have not received a copy of the interim financial reports with this interim management report of fund performance, you can get a copy of the interim financial reports or annual financial statements at your request, and at no cost, by calling us toll-free at 1-888-888-FUND (3863), by writing to us at Renaissance Investments, 1500 Robert-Bourassa Boulevard, Suite 800, Montreal, QC, H3A 3S6, by visiting the SEDAR website at sedar.com, or by visiting renaissanceinvestments.ca.

Unitholders may also contact us using one of these methods to request a copy of the investment fund's proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure.

Management Discussion of Fund Performance

Results of Operations

Renaissance Global Resource Fund's (the *Fund*) portfolio advisor is CIBC Asset Management Inc. (*CAMI*, the *Manager* or *Portfolio Advisor*). The commentary that follows provides a summary of the results of operations for the six-month period ended February 28, 2019. All dollar figures are expressed in thousands, unless otherwise indicated.

The Fund's net asset value decreased by 19% during the period, from \$49,346 as at August 31, 2018 to \$40,185 as at February 28, 2019. Net redemptions of \$5,854 and negative investment performance resulted in an overall decrease in net asset value.

Class A units of the Fund posted a return of -7.5% for the period. The Fund's benchmark, the MSCI World Index (the *benchmark*), returned -2.1% for the same period. The Fund's return is after the deduction of fees and expenses, unlike the benchmark's return. See *Past Performance* for the returns of other classes of units offered by the Fund.

The ongoing trade war between China and the U.S. created uncertainty in the commodity industry during the period.

In January, a significant environmental disaster in Brazil had a material impact on global freight rates and iron ore prices.

In early 2019, OPEC+ (the Organization of Petroleum Exporting Countries plus 10 co-operating non-member states) initiated an oil production cut of 1.2 million barrels per day to help balance global oil supply inventories. Oil prices were also supported by ongoing political turmoil in Venezuela and lower capital spending by U.S. shale producers.

Over the period, individual detractors from the Fund's performance included an underweight holding in Barrick Gold Corp. and overweight holdings in Encana Corp. and MEG Energy Corp. Barrick's merger with Randgold Resources Ltd., completed during the period, was well received by the markets and the Fund's underweight holding detracted.

Conversely, Encana's acquisition of Newfield Exploration Co. was viewed unfavourably by the market as the company entered a new core area where industry results have underwhelmed investor expectations. The Fund's overweight holding in Encana detracted. The overweight holding in MEG detracted after Husky Energy Inc.'s acquisition of MEG failed. Husky walked away from the hostile bid and MEG shares fell back to their previous level.

Holdings in higher-quality companies with strong balance sheets and strong management teams contributed to the Fund's performance.

Individual contributors to the Fund's performance included overweight holdings in Rio Tinto PLC and Champion Iron Ltd. Rio Tinto completed important strategic initiatives and continued to return significant cash to shareholders. Champion Iron reported strong quarterly results and the share price began to reflect the company's potential to generate cash flow.

The Portfolio Advisor took advantage of a broad market sell-off to add a new holding in WPX Energy Inc. to the Fund. The high-quality, mid-capitalization exploration and production company is transforming its business into a free-cash-flow model.

The Fund's existing holding in Encana was increased as share price weakness improved the valuation in terms of both net asset value and multiples. The Portfolio Advisor expects many positive catalysts for the share price in 2019, including a share buyback and well results from Encana's STACK/SCOOP oil-and-gas play in Oklahoma.

The Portfolio Advisor eliminated several of the Fund's Canadian energy sector holdings in order to fund better opportunities. The Portfolio Advisor is concerned about the volatility of Keyera Corp.'s marketing business. Nuvista Energy Ltd. has increasing exposure to the AECO natural gas price in 2019 and acquisition synergies seem limited. TORC Oil & Gas Ltd.'s model of growth through acquisition appears challenged as the stock is trading at low multiples that make it difficult to execute beneficial deals.

Several of the Fund's holdings were reduced to adjust the risk weighting in the portfolio. The Portfolio Advisor views Kinross Gold Corp. as a lower-quality gold company with higher leverage and geographic risk. Weaker near-term global liquefied natural gas prices mean that TOTAL SA faces possible risk on large-scale merger and acquisition activity. Glencore PLC may encounter ongoing environmental, social and governance risks from the U.S. Department of Justice investigation into corruption, and also faces political risk in the Democratic Republic of Congo.

Recent Developments

The composition of the Independent Review Committee (*IRC*) changed during the period. Effective February 28, 2019, Susan Silma resigned as a member of the IRC and, effective April 27, 2019, Barry Pollock was appointed as a member of the IRC.

Related Party Transactions

CIBC and its affiliates have the following roles and responsibilities with respect to the Fund, and receive the fees described below in connection with their roles and responsibilities.

Manager, Trustee, and Portfolio Advisor of the Fund

CAMI, a wholly-owned subsidiary of CIBC, is the Fund's Manager, Trustee, and Portfolio Advisor. CAMI receives management fees with respect to the Fund's day-to-day business and operations, calculated based on the net asset value of each respective class of units of the Fund as described in *Management Fees*. As Trustee, CAMI holds title to the Fund's property (cash and securities) on behalf of its unitholders. As Portfolio Advisor, CAMI provides, or arranges to provide, investment advice and portfolio management services to the Fund. CAMI also compensates dealers in connection with their marketing activities regarding the Fund. From time to time, CAMI may invest in units of the Fund.

Distributor

Dealers and other firms sell units of the Fund to investors. These dealers and other firms include CAMI's related dealers such as the CIBC Investor's Edge discount brokerage division of CIBC Investor Services Inc. (*CIBC ISI*), the CIBC Imperial Service division of CIBC ISI, and the CIBC Wood Gundy division of CIBC World Markets Inc. (*CIBC WM*). CIBC ISI and CIBC WM are wholly-owned subsidiaries of CIBC.

CAMI may pay sales commissions and trailing commissions to these dealers and firms in connection with the sale of units of the Fund. These dealers and other firms may pay a portion of these sales commissions and trailing commissions to their advisors who sell units of the Fund to investors.

Brokerage Arrangements and Soft Dollars

CAMI generally delegates trading and execution authority to the portfolio sub-advisors and does not, in its capacity as portfolio advisor, receive any goods or services directly through soft dollar arrangements.

The Portfolio Advisor and any portfolio sub-advisors make decisions, including the selection of markets and dealers and the negotiation of commissions, with respect to the purchase and sale of portfolio securities, certain derivative products and the execution of portfolio transactions. Brokerage business may be allocated by the Portfolio Advisor and any portfolio sub-advisor to CIBC WM and CIBC World Markets Corp., each a subsidiary of CIBC. CIBC WM and CIBC World Markets Corp. may also earn spreads on the sale of fixed income securities, other securities, and certain derivative products to the Fund. A spread is the difference between the bid and ask prices for a security in the applicable marketplace, with respect to the execution of portfolio transactions. The spread will differ based upon various factors such as the nature and liquidity of the security.

Dealers, including CIBC WM and CIBC World Markets Corp., may furnish goods and services, other than order execution, to the Portfolio Advisor and any portfolio sub-advisors when they process trades through them (referred to in the industry as "soft-dollar" arrangements). These goods and services are paid for with a portion of the brokerage commissions and assist the Portfolio Advisor and any portfolio sub-advisor with investment decision-making services for the Fund or relate directly to the execution of portfolio transactions on behalf of the Fund. As per the terms of the portfolio sub-advisory agreements, such soft dollar arrangements are in compliance with applicable laws.

In addition, the Manager may enter into commission recapture arrangements with certain dealers with respect to the Fund. Any commission recaptured will be paid to the Fund.

During the period, the Fund did not pay any brokerage commissions or other fees to CIBC WM or CIBC World Markets Corp. Spreads associated with fixed income and other securities are not ascertainable and, for that reason, cannot be included when determining these amounts.

Fund Transactions

The Fund may enter into one or more of the following transactions (the *Related Party Transactions*) in reliance on the standing instructions issued by the IRC:

- invest in or hold equity securities of CIBC or issuers related to a portfolio sub-advisor;
- invest in or hold non-exchange-traded debt securities of CIBC or an issuer related to CIBC in a primary offering and in the secondary market;
- make an investment in the securities of an issuer for which CIBC WM, CIBC World Markets Corp., or any affiliate of CIBC (a Related Dealer) acts as an underwriter during the offering of the securities at any time during the 60-day period following the completion of the offering of such securities (in the case of a "private placement" offering, in accordance with the exemptive relief order granted by the Canadian securities regulatory authorities and in accordance with the policies and procedures relating to such investment);
- purchase equity or debt securities from or sell them to a Related Dealer, where it is acting as principal;

- undertake currency and currency derivative transactions where a Related Dealer is the counterparty;
- purchase securities from or sell securities to another investment fund or a managed account managed by the Manager or an affiliate of the Manager; and
- engage in in-specie transfers by receiving portfolio securities from, or delivering portfolio securities to, a managed account or another investment fund managed by the Manager or an affiliate of the Manager, in respect of a purchase or redemption of units of the Fund, subject to certain conditions.

At least annually, the IRC reviews the Related Party Transactions for which they have issued standing instructions. The IRC is required to advise the Canadian securities regulatory authorities, after a matter has been referred to or reported to it by the Manager, if it determines that an investment decision was not made in accordance with conditions imposed by securities legislation or the IRC in any Related Party Transactions requiring its approval.

Custodian

CIBC Mellon Trust Company is the custodian of the Fund (the *Custodian*). The Custodian holds all cash and securities for the Fund and ensures that those assets are kept separate from any other cash or securities that the custodian might be holding. The Custodian also provides other services to the Fund including record-keeping and processing of foreign exchange transactions. The fees and spreads for services of the Custodian directly related to the execution of portfolio transactions by the Fund are paid by CAMI and/or dealer(s) directed by CAMI, up to the amount of the credits generated under soft dollar arrangements from trading on behalf of the Fund during that month. All other fees and spreads for the services of the Custodian are paid by the Manager and charged to the Fund on a recoverable basis. CIBC owns a 50% interest in the Custodian.

Service Provider

CIBC Mellon Global Securities Services Company (*CIBC GSS*) provides certain services to the Fund, including securities lending, fund accounting and reporting, and portfolio valuation. Such servicing fees are paid by the Manager and charged to the Fund on a recoverable basis. CIBC indirectly owns a 50% interest in CIBC GSS.

Renaissance Global Resource Fund

Financial Highlights

The following tables show selected key financial information about the Fund and are intended to help you understand the Fund's financial performance for the period ended February 28, 2019 and August 31 of any other period(s) shown.

The Fund's Net Assets per Unit¹ - Class A Units

	2019	2018	2017	2016	2015	2014
Net Assets, beginning of period	\$ 7.87	\$ 7.23	\$ 7.56	\$ 7.29	\$ 11.31	\$ 9.49
Increase (decrease) from operations:						
Total revenue	\$ 0.10	\$ 0.16	\$ 0.20	\$ 0.16	\$ 0.19	\$ 0.14
Total expenses	(0.10)	(0.22)	(0.22)	(0.23)	(0.27)	(0.42)
Realized gains (losses) for the period	(0.20)	0.15	0.24	(1.26)	(1.19)	0.83
Unrealized gains (losses) for the period	(0.41)	0.64	(0.51)	1.66	(2.85)	1.32
Total increase (decrease) from operations²	\$ (0.61)	\$ 0.73	\$ (0.29)	\$ 0.33	\$ (4.12)	\$ 1.87
Distributions:

Total Distributions³	\$ –	\$ –	\$ –	\$ –	\$ –	\$ –
Net Assets, end of period	\$ 7.28	\$ 7.87	\$ 7.23	\$ 7.56	\$ 7.29	\$ 11.31

¹ This information is derived from the Fund's audited annual and unaudited interim financial statements. The Fund adopted IFRS on September 1, 2014. Previously, the Fund prepared its financial statements in accordance with Canadian Generally Accepted Accounting Principles (GAAP) as defined in Part V of the CPA Canada Handbook. Under Canadian GAAP, the Fund measured fair values of its investments in accordance with CICA Handbook Section 3855 which required the use of bid prices for long positions and ask prices for short positions. As such, the net assets per unit figure presented in the financial statements differs from the net asset value calculated for fund pricing purposes. An explanation of these differences can be found in the notes to the financial statements prior to September 1, 2014. Upon adoption of IFRS, the Fund measures the fair value of its investments by using the close market prices, where the close market price falls within the bid-ask spread. As such, the Fund's accounting policies for measuring the fair value of investments in the financial statements are consistent with those used in measuring the net asset value for transactions with unitholders. Accordingly, the opening net asset figure as at September 1, 2013 reflects the adjusted amount in accordance with IFRS. All figures presented for periods prior to September 1, 2013 were prepared in accordance with Canadian GAAP.

² Net assets and distributions are based on the actual number of units outstanding at the relevant time. The total increase (decrease) from operations is based on the weighted average number of units outstanding during the period.

³ Distributions were paid in cash, reinvested in additional units of the Fund, or both.

Ratios and Supplemental Data - Class A Units

	2019	2018	2017	2016	2015	2014
Total Net Asset Value (000s)⁴	\$ 3,554	\$ 4,124	\$ 5,017	\$ 6,124	\$ 5,681	\$ 10,120
Number of Units Outstanding⁴	488,464	524,124	693,962	809,544	779,069	894,906
Management Expense Ratio⁵	2.49% *	2.49%	2.50%	2.66%	2.65%	3.30%
Management Expense Ratio before waivers or absorptions⁶	3.49% *	3.34%	3.50%	3.96%	3.91%	3.99%
Trading Expense Ratio⁷	0.11% *	0.14%	0.26%	0.39%	0.38%	0.65%
Portfolio Turnover Rate⁸	10.79%	41.17%	86.83%	117.43%	87.95%	117.84%
Net Asset Value per Unit	\$ 7.28	\$ 7.87	\$ 7.23	\$ 7.56	\$ 7.29	\$ 11.31

* Ratio has been annualized.

⁴ This information is presented as at February 28, 2019 and August 31 of the period(s) shown.

⁵ Management expense ratio is based on the total expenses of the fund (excluding commissions and other portfolio transaction costs), incurred by or allocated to a class of units for the period shown, expressed as an annualized percentage of the daily average net asset value of that class during the period. The management expense ratio includes the fees attributable to exchange traded funds.

⁶ The decision to waive and/or absorb management fees and operating expenses is at the discretion of the Manager. The practice of waiving and/or absorbing management fees and operating expenses may continue indefinitely or may be terminated at any time without notice to unitholders. The management expense ratio before waivers or absorptions includes the fees attributable to exchange traded funds.

⁷ The trading expense ratio represents total commissions and other portfolio transaction costs before income taxes expressed as an annualized percentage of the daily average net asset value during the period. Spreads associated with fixed income securities trading are not ascertainable and, for that reason, are not included in the trading expense ratio calculation. Previously, the trading expense ratio included the fees attributable to exchange traded funds which are now no longer included in the TER. Prior year fees attributable to exchange traded funds have been reclassified to the management expense ratio and management expense ratio before waivers or absorptions.

⁸ The portfolio turnover rate indicates how actively the portfolio advisor and/or portfolio sub-advisor manages the portfolio investments. A portfolio turnover rate of 100% is equivalent to a fund buying and selling all of the securities in its portfolio once in the course of the period. The higher a portfolio turnover rate in a period, the greater the trading costs payable by a fund in the period, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of a fund.

Prior year fees attributable to exchange traded funds have been reclassified to the management expense ratio and management expense ratio before waivers or absorptions.

⁸ The portfolio turnover rate indicates how actively the portfolio advisor and/or portfolio sub-advisor manages the portfolio investments. A portfolio turnover rate of 100% is equivalent to a fund buying and selling all of the securities in its portfolio once in the course of the period. The higher a portfolio turnover rate in a period, the greater the trading costs payable by a fund in the period, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of a fund.

Management Fees

The Fund pays CAMI an annual management fee to cover the costs of managing the Fund. Management fees are based on the Fund's net asset value and are calculated daily and paid monthly. Management fees are paid to CAMI in consideration for providing, or arranging for the provision of, management, distribution, and portfolio advisory services. Advertising and promotional expenses, office overhead expenses related to the Manager's activities, and trailing commissions are paid by CAMI out of the management fees received from the Fund. The Fund is required to pay applicable taxes on the management fees paid to CAMI. Refer to the simplified prospectus for the annual management fee rate for each class of units.

For Class O units, the management fee is negotiated with and paid by, or as directed by, unitholders or dealers and discretionary managers on behalf of unitholders. Such Class O management fee will not exceed the Class F unit management fee rate.

The following table shows a breakdown of the services received in consideration of the management fees, as a percentage of the management fees collected from the Fund for the period ended February 28, 2019. These amounts do not include waived fees or absorbed expenses.

	Class A Units	Class F Units
Sales and trailing commissions paid to dealers	50.04%	0.00%
General administration, investment advice, and profit	49.96%	100.00%

Past Performance

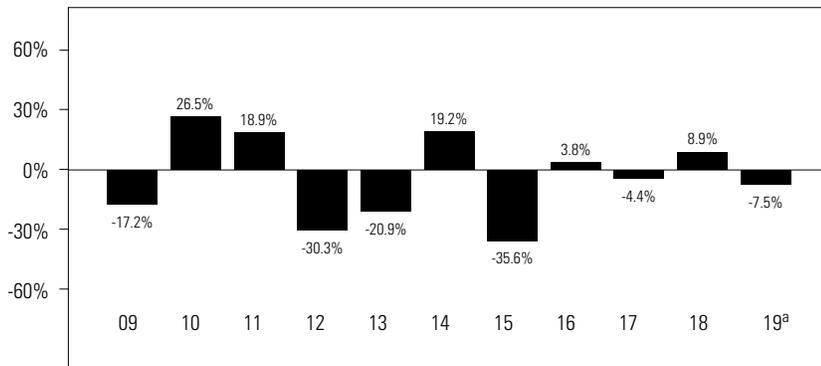

The performance data provided assumes reinvestment of distributions only and does not take into account sales, redemption, distribution, or other optional charges payable by any unitholder that would have reduced returns. Past performance does not necessarily indicate how a fund will perform in the future.

The Fund's returns are after the deduction of fees and expenses, and the difference in returns between classes of units is primarily due to differences in the management expense ratio. See *Financial Highlights* for the management expense ratio.

Year-by-Year Returns

These bar charts show the annual performance of each class of units of the Fund for each of the periods shown, and illustrate how the performance has changed from period to period. These bar charts show, in percentage terms, how an investment made on September 1 would have increased or decreased by August 31, unless otherwise indicated.

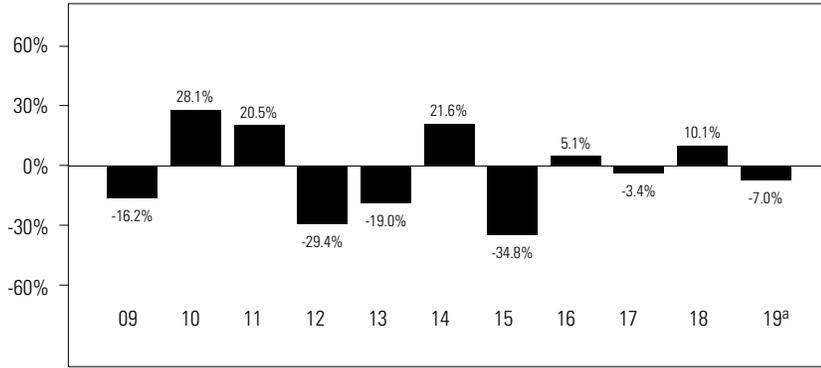

Class A Units

^a 2019 return is for the period from September 1, 2018 to February 28, 2019.

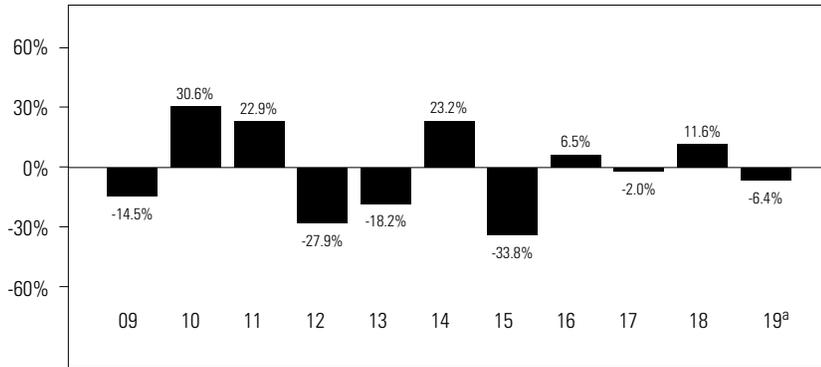

Renaissance Global Resource Fund

Class F Units

^a 2019 return is for the period from September 1, 2018 to February 28, 2019.

Class O Units

^a 2019 return is for the period from September 1, 2018 to February 28, 2019.

Renaissance Global Resource Fund

Summary of Investment Portfolio (as at February 28, 2019)

The summary of investment portfolio may change due to ongoing portfolio transactions of the investment fund. A quarterly update is available by visiting renaissanceinvestments.ca. The Top Positions table shows a fund's 25 largest positions. For funds with fewer than 25 positions in total, all positions are shown. Cash and cash equivalents are shown in total as one position.

<i>Portfolio Breakdown</i>	<i>% of Net Asset</i>	<i>Top Positions</i>	<i>% of Net Asset</i>

A note on forward-looking statements

The management report of fund performance may contain forward-looking statements. Forward-looking statements include statements that are predictive in nature, that depend upon or refer to future events or conditions, or that include words such as “expects”, “anticipates”, “intends”, “plans”, “believes”, “estimates”, or other similar wording. In addition, any statements that may be made concerning future performance, strategies, or prospects and possible future actions taken by the fund, are also forward-looking statements. Forward-looking statements are not guarantees of future performance. These statements involve known and unknown risks, uncertainties, and other factors that may cause the actual results and achievements of the fund to differ materially from those expressed or implied by such statements. Such factors include, but are not limited to: general economic, market, and business conditions; fluctuations in securities prices, interest rates, and foreign currency exchange rates; changes in government regulations; and catastrophic events.

The above list of important factors that may affect future results is not exhaustive. Before making any investment decisions, we encourage you to consider these and other factors carefully. CIBC Asset Management Inc. does not undertake, and specifically disclaims, any obligation to update or revise any forward-looking statements, whether as a result of new information, future developments, or otherwise prior to the release of the next management report of fund performance.
