

Annual Management Report of Fund Performance

for the financial year ended December 31, 2023

All figures are reported in Canadian dollars unless otherwise noted.

This annual management report of fund performance contains financial highlights but does not contain the complete annual financial statements of the investment fund. You can get a copy of the annual financial statements at your request, and at no cost, by calling toll-free at [1 888 888-3863](tel:18888883863), by emailing us at info@cibcassetmanagement.com, by writing to us at CIBC Square, 81 Bay Street, 20th floor, Toronto, Ontario, M5J 0E7, or by visiting our website at www.cibc.com/mutualfunds or SEDAR+ at www.sedarplus.ca.

Unitholders may also contact us using one of these methods to request a copy of the investment fund's interim financial report, proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure.

Management Discussion of Fund Performance

Investment Objective and Strategies

Investment Objective: CIBC Global Credit Fund (referred to as the *Fund*) seeks to maximize current income and provide modest capital gains by investing primarily in investment grade non-Canadian fixed income securities diversified broadly across industries, issuers, and regions.

Investment Strategies: The Fund seeks to invest the majority of its assets in a diversified portfolio of fixed income securities of varying maturities. In addition to corporate fixed income securities, the Fund may, but is not limited to, invest in sovereign, agency, and supranational securities, corporate issues below investment grade, securities and instruments of, or that are economically tied to, emerging market countries, common or preferred stocks.

Risk

The Fund is a global corporate fixed income fund that is suitable for medium to long term investors who can tolerate low investment risk.

For the period ended December 31, 2023, the Fund's overall level of risk remained as discussed in the prospectus.

Results of Operations

The Fund's portfolio sub-advisor is PIMCO Canada Corp. (referred to as the *Sub-Advisor*). The commentary that follows provides a summary of the results of operations for the period ended December 31, 2023. All dollar figures are expressed in thousands, unless otherwise indicated.

The Fund's net asset value decreased by 12% during the period, from \$209,520 as at December 31, 2022 to \$183,704 as at December 31, 2023. Net redemptions of \$43,429 were partially offset by positive investment performance, resulting in an overall decrease in net asset value.

Series A units of the Fund posted a return of 8.9% for the period. The Fund's primary benchmark, the Bloomberg Global Aggregate Credit Index (Hedged to CAD) (referred to as the *primary benchmark*), returned 7.8% for the same period. The Fund's return is after the deduction of fees and expenses, unlike the primary benchmark's return. See the section *Past Performance* for the returns of other series of units offered by the Fund.

During the first quarter of 2023, the fundamental backdrop showed signs of a slowdown amid financials sector instability, while inflation slowed. The U.S. Federal Reserve Board (referred to as the *Fed*) raised its policy rate by 0.50% over the quarter and dampened expectations for further interest increases. Other major global central banks largely followed suit. Risk sentiment improved despite the collapse of SVB Financial Group and the merger of Credit Suisse Group AG and UBS Group AG.

In the second quarter of the year, risk sentiment remained robust despite debt concerns surrounding the U.S. debt ceiling and credit spreads broadly tightened. The Fed raised its policy rate by 0.25% before pausing. Meanwhile, global developed central banks maintained their monetary tightening stance in response to persistently high inflation.

In the third quarter, stronger-than-expected economic data reignited concerns that interest rates might need to stay higher for longer, lifting real bond yields to levels not seen since the great financial crisis of 2008–2009. The Fed raised its policy rate by 0.25% and global developed market central banks broadly maintained monetary policy tightening.

In the last quarter of 2023, the U.S. 10-year Treasury bond yield was volatile, topping the 5.0% threshold in October for the first time since 2007. Signs of moderating inflation and decelerating economic growth saw the 10-year treasury yield decline to 3.88% as the Fed's projections for a lower federal funds rate in 2024 bolstered market expectations of interest rate reductions. The global bond market recorded its strongest two-month rebound in over three decades.

Security selection in emerging markets, notably in Asia and Latin America, detracted from the Fund's performance amid uncertainty fuelled by geopolitical factors. The Fund's overweight Canadian-dollar duration (higher sensitivity to changes in interest rates) detracted from performance.

The Fund's high-yield positioning, particularly within credit default swaps, contributed to performance amid improving investor sentiment. An underweight duration (lower sensitivity to changes in interest rates) relative to the benchmark contributed to the Fund's performance as

interest rates rose. Security selection within investment-grade credit also contributed to performance. The Fund's holdings in investment-grade credit in the financials, industrials and information technology sectors contributed to performance in the second half of the year amid declining volatility. U.S.-dollar and euro duration positioning contributed to performance in the fourth quarter.

The Sub-Advisor purchased new issues in banking and diversified financial services as the primary market in the financials sector reopened amid rising stability and improving investor confidence in the sector. The Fund's holdings in pipelines were increased, moving from an underweight allocation to an overweight allocation as the industry benefits from a favourable energy price environment. The Sub-Advisor also increased the Fund's holdings in electric rate-regulated utilities, which tend to be better insulated to economic downturns.

Holdings in gaming companies were reduced as credit spreads continued to compress. The Sub-Advisor also reduced the Fund's exposures to media and consumer cyclical stocks in light of recession risks.

Recent Developments

Effective April 27, 2023, Bryan Houston was appointed Chair of the Independent Review Committee.

The COVID-19 pandemic and the Russia-Ukraine war have disrupted the global economy and financial markets in unprecedented and unpredictable ways. This has resulted in significant volatility and uncertainty in financial markets. It is unclear what further actions may be taken by governments and the resulting impact on global economies, businesses and financial markets. Inflation has increased in many markets across the globe, leading central banks to raise interest rates in order to counter rapidly rising prices. These factors may adversely affect the performance of the Fund. The Manager continues to monitor ongoing developments and the impact to investment strategies.

Related Party Transactions

Canadian Imperial Bank of Commerce (referred to as *CIBC*) and its affiliates have the following roles and responsibilities with respect to the Fund, and receive the fees described below in connection with their roles and responsibilities.

Manager, Trustee, and Portfolio Advisor of the Fund

CAMI, a wholly-owned subsidiary of CIBC, is the Fund's Manager, Trustee, and Portfolio Advisor. As Manager, CAMI receives management fees with respect to the Fund's day-to-day business and operations, calculated based on the net asset value of units of the Fund as described in *Management Fees*.

The Manager pays the Fund's operating expenses (other than certain Fund costs) in respect of the series of units of the Fund (except Series O unit), which may include but are not limited to, operating and administrative costs; regulatory fees; audit, and legal fees and expenses; trustee, safekeeping, custodial, and any agency fees; and investor servicing costs and costs of unitholder reports, prospectuses, Fund Facts, and other reports, in exchange for the Fund paying a fixed rate administration fee (plus applicable GST/HST) to the Manager with respect to those series of units. For Series O units, no fixed administration fee will be charged. The Manager pays the Fund's

operating expenses (other than certain Fund costs) allocated to Series O units of the Fund. The fixed administration fee payable by the Fund, may, in any particular period, exceed or be lower than the expenses we incur in providing such services to the Fund.

As Trustee, CAMI holds title to the Fund's property (cash and securities) on behalf of its unitholders. As Portfolio Advisor, CAMI provides, or arranges to provide for, investment advice and portfolio management services to the Fund. CAMI also compensates dealers in connection with their marketing activities regarding the Fund. From time to time, CAMI may invest in units of the Fund.

Distributor

Dealers and other firms sell units of the Fund to investors. These dealers and other firms include CAMI's related dealers such as the CIBC Securities Inc. (referred to as CIBC SI), CIBC Investor's Edge discount brokerage division of CIBC Investor Services Inc. (referred to as CIBC ISI), the CIBC Imperial Service division of CIBC ISI, and the CIBC Wood Gundy division of CIBC World Markets Inc. (referred to as CIBC WM). CIBC SI, CIBC ISI and CIBC WM are wholly-owned subsidiaries of CIBC.

CAMI may pay sales commissions and trailing commissions to these dealers and firms in connection with the sale of units of the Fund. These dealers and other firms may pay a portion of these sales commissions and trailing commissions to their advisors who sell units of the Fund to investors.

Brokerage Arrangements and Soft Dollars

The Portfolio Advisor and any portfolio sub-advisors make decisions, including the selection of markets and dealers and the negotiation of commissions, with respect to the purchase and sale of portfolio securities, certain derivative products and the execution of portfolio transactions. Brokerage business may be allocated by the Portfolio Advisor and any portfolio sub-advisor to CIBC WM and CIBC World Markets Corp., each a subsidiary of CIBC. CIBC WM and CIBC World Markets Corp. may also earn spreads on the sale of fixed income securities, other securities, and certain derivative products to the Fund. A spread is the difference between the bid and ask prices for a security in the applicable marketplace, with respect to the execution of portfolio transactions. The spread will differ based upon various factors such as the nature and liquidity of the security.

Dealers, including CIBC WM and CIBC World Markets Corp., may furnish goods and services, other than order execution, to the Portfolio Advisor and any portfolio sub-advisors when they process trades through them (referred to in the industry as "soft-dollar" arrangements). These goods and services are paid for with a portion of the brokerage commissions and assist the Portfolio Advisor and any portfolio sub-advisor with investment decision-making services for the Fund or relate directly to the execution of portfolio transactions on behalf of the Fund. As per the terms of the portfolio sub-advisory agreements, such soft dollar arrangements are in compliance with applicable laws.

During the period, the Fund did not pay any brokerage commissions or other fees to CIBC WM or CIBC World Markets Corp. Spreads associated with fixed income and other securities are not ascertainable and, for that reason, cannot be included when determining these amounts.

Fund Transactions

The Fund may enter into one or more of the following transactions (referred to as the Related Party Transactions) in reliance on the standing instructions issued by the Independent Review Committee (referred to as the IRC):

- invest in or hold equity securities of CIBC or issuers related to a Portfolio Advisor;
- invest in or hold non-exchange-traded debt securities of CIBC or an issuer related to CIBC, with terms-to-maturity of 365 days or more, issued in a primary offering and in the secondary market;
- make an investment in the securities of an issuer for which CIBC WM, CIBC World Markets Corp., or any affiliate of CIBC (referred to as a Related Dealer or the Related Dealers) acts as an underwriter during the offering of the securities or at any time during the 60-day period following the completion of the offering of such securities (in the case of a "private placement" offering, in accordance with the Private Placement Relief Order and the policies and procedures relating to such investment);
- purchase equity or debt securities from, or sell them to, a Related Dealer, where it is acting as principal;
- undertake currency and currency derivative transactions where a related party is the counterparty;
- purchase securities from or sell securities to another investment fund or a managed account managed by the Manager or an affiliate (referred to as inter-fund trades or cross-trades); and
- engage in in-specie transfers by receiving portfolio securities from, or delivering portfolio securities to, a managed account or another investment fund managed by the Manager or an affiliate, in respect of a purchase or redemption of units of the Fund, subject to certain conditions.

At least annually, the IRC reviews the Related Party Transactions for which they have issued standing instructions. The IRC is required to advise the Canadian securities regulatory authorities, after a matter has been referred to or reported to it by the Manager, if it determines that an investment decision was not made in accordance with conditions imposed by securities legislation or the IRC in any Related Party Transactions requiring its approval.

Custodian

CIBC Mellon Trust Company is the custodian of the Fund (referred to as the Custodian). The Custodian holds all cash and securities for the Fund and ensures that those assets are kept separate from any other cash or securities that the custodian might be holding. The Custodian also provides other services to the Fund including record-keeping and processing of foreign exchange transactions. CIBC owns a 50% interest in the Custodian.

Service Provider

CIBC Mellon Global Securities Services Company Inc. (referred to as CIBC GSS) provides certain services to the Fund, including securities lending, fund accounting and reporting, and portfolio valuation. Such servicing fees are paid by the Manager. CIBC indirectly owns a 50% interest in CIBC GSS.

Financial Highlights

The following tables show selected key financial information about the Fund and are intended to help you understand the Fund's financial performance for the period ended December 31.

^a Information presented is for the period from the inception date to December 31.

^b Initial offering price.

* Ratio has been annualized.

¹ This information is derived from the Fund's audited annual financial statements.

² Net assets and distributions are based on the actual number of units outstanding at the relevant time. The total increase (decrease) from operations is based on the weighted average number of units outstanding during the period.

³ Distributions were paid in cash, reinvested in additional units of the Fund, or both.

⁴ This information is presented as at December 31 of the period(s) shown.

- ⁵ Management expense ratio is based on the total expenses of the fund (excluding commissions and other portfolio transaction costs), incurred by or allocated to a series of units for the period shown, expressed as an annualized percentage of the daily average net asset value of that series during the period. The management expense ratio includes the fees attributable to mutual funds, where applicable.
- ⁶ The decision to waive management fees is at the discretion of the Manager. The practice of waiving management fees may continue indefinitely or may be terminated at any time without notice to unitholders. The management expense ratio before waivers includes the fees attributable to mutual funds, where applicable.
- ⁷ The trading expense ratio represents total commissions and other portfolio transaction costs before income taxes expressed as an annualized percentage of the daily average net asset value during the period. Spreads associated with fixed income securities trading are not ascertainable and, for that reason, are not included in the trading expense ratio calculation.
- ⁸ The portfolio turnover rate indicates how actively the portfolio advisor and/or portfolio sub-advisor manages the portfolio investments. A portfolio turnover rate of 100% is equivalent to a fund buying and selling all of the securities in its portfolio once in the course of the period. The higher a portfolio turnover rate in a period, the greater the trading costs payable by a fund in the period, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of a fund.

Management Fees

The Fund, either directly or indirectly, pays CAMI an annual management fee to cover the costs of managing the Fund. Management fees are based on the Fund's net asset value and are calculated daily and paid monthly. Management fees are paid to CAMI in consideration for providing, or arranging for the provision of, management, distribution, and portfolio advisory services. Advertising and promotional expenses, office overhead expenses and trailing commissions are paid by CAMI out of the management fees received from the Fund. The Fund is required to pay applicable taxes on the management fees paid to CAMI. Refer to the Simplified Prospectus for the annual management fee rate for each series of units. For Series O units, the management fee is negotiated with and paid by, or as directed by, unitholders or dealers and discretionary managers on behalf of unitholders. Such Series O management fee will not exceed the Series F unit management fee rate.

For the period ended December 31, 2023, 100% of the management fees collected from the Fund was attributable to general administration and investment advice.

Past Performance

The performance data provided assumes reinvestment of distributions only and does not take into account sales, redemption, distribution, or other optional charges payable by any unitholder that would have reduced returns. Past performance does not necessarily indicate how a Fund will perform in the future.

The Fund's returns are after the deduction of fees and expenses, and the difference in returns between series of units is primarily due to differences in the management expense ratio. See the *Financial Highlights* section for the management expense ratio.

Year-by-Year Returns

These bar charts show the annual performance of each series of units of the Fund for each of the periods shown, and illustrate how the performance has changed from period to period. These bar charts show, in percentage terms, how an investment made on January 1 would have increased or decreased by December 31, unless otherwise indicated.

† 2022 return is for the period from June 8, 2022 to December 31, 2022.

† 2022 return is for the period from July 5, 2022 to December 31, 2022.

† 2022 return is for the period from June 8, 2022 to December 31, 2022.

† 2022 return is for the period from July 5, 2022 to December 31, 2022.

Annual Compound Returns

This table shows the annual compound return of each class of units of the Fund for each indicated period ended on December 31, 2023. The annual compound total return is also compared to the Fund's benchmark(s).

The Fund's primary benchmark is the Bloomberg Global Aggregate Credit Index (Hedged to CAD).

The Fund's blended benchmark (referred to as *Blended Benchmark*) is comprised of the following:

- 50% Bloomberg Global Aggregate Credit ex. Emerging Markets Bond Index (Hedged to CAD)
- 25% ICE BofA BB-B Rated Developed Markets High Yield Constrained Index (Hedged to CAD)
- 25% JPMorgan EMBI Global Diversified Bond Index (Hedged to CAD)

	1 Year (%)	3 Years (%)	5 Years (%)	10 Years* (%)	or Since Inception* (%)	Inception Date
Series A units	8.9				2.9	June 8, 2022
Bloomberg Global Aggregate Credit Index (Hedged to CAD)	7.8				2.2	
Blended Benchmark	9.5				4.0	
Series F units	4.4				1.4	July 5, 2022
Bloomberg Global Aggregate Credit Index (Hedged to CAD)	7.8				3.5	
Blended Benchmark	9.5				6.3	
Series O units	9.9				4.1	June 8, 2022
Bloomberg Global Aggregate Credit Index (Hedged to CAD)	7.8				2.2	
Blended Benchmark	9.5				4.0	
Series S units	5.6				2.2	July 5, 2022
Bloomberg Global Aggregate Credit Index (Hedged to CAD)	7.8				3.5	
Blended Benchmark	9.5				6.3	

* If a series of units has been outstanding for less than 10 years, the annual compound return since inception is shown.

Bloomberg Global Aggregate Credit Index (Hedged to CAD) represents a close estimation of the performance that can be achieved by hedging the currency exposure of its parent index, the Bloomberg Global Aggregate Credit Index, to CAD. The index is 100% hedged to the CAD by selling the forwards of all the currencies in the parent index at the one-month Forward rate. The Bloomberg Global Aggregate Credit Index measures the global investment grade local currency corporate and government-related bond markets. This multi-currency benchmark includes fixed-rate bonds from both developed and emerging markets issuers. It is a component of the Global Aggregate Index, and was created in 2001, with index history backfilled to September 1, 2000.

Bloomberg Global Aggregate Credit ex. Emerging Markets Bond Index (Hedged to CAD) is subset of the Bloomberg Barclays Global Aggregate Credit Index, excluding emerging market bonds.

ICE BofA BB-B Rated Developed Markets High Yield Constrained Index (Hedged to CAD) is comprised of all securities in The ICE BofA Global High Yield Index that are BB-B rated based on average of Moody's, S&P and Fitch and have a developed markets country of risk. ICE BofA Global High Yield Index tracks the performance of USD, CAD, GBP and EUR denominated below investment grade corporate debt publicly issued in the major domestic or eurobond markets.

JPMorgan EMBI Global Diversified Bond Index (Hedged to CAD) is a uniquely weighted USD denominated emerging markets sovereign index. It has a distinct distribution scheme which allows a more even distribution of weights among the countries in the index (compared to EMBI Global).

Eligible for inclusion in this index are US dollar-denominated Brady bonds, Eurobonds and traded loans issued by sovereign and quasi-sovereign entities.

A discussion of the Fund's relative performance compared to its benchmark(s) can be found in *Results of Operations*.

Summary of Investment Portfolio (as at December 31, 2023)

The summary of investment portfolio may change due to ongoing portfolio transactions of the Fund. A quarterly update is available by visiting www.cibc.com/mutualfunds. The Top Positions table shows the Fund's 25 largest positions. If the Fund holds fewer than 25 positions in total, all positions are shown. Cash and cash equivalents are shown in total as one position.

		HSBC Holdings PLC, Variable Rate, Callable, 5.89%, 2027/08/14	0.5

A note on forward-looking statements

The management report of fund performance may contain forward-looking statements. Forward-looking statements include statements that are predictive in nature, that depend upon or refer to future events or conditions, or that include words such as "expects", "anticipates", "intends", "plans", "believes", "estimates", or other similar wording. In addition, any statements that may be made concerning future performance, strategies, or prospects and possible future actions taken by the fund, are also forward-looking statements. Forward-looking statements are not guarantees of future performance. These statements involve known and unknown risks, uncertainties, and other factors that may cause the actual results and achievements of the fund to differ materially from those expressed or implied by such statements. Such factors include, but are not limited to: general economic, market, and business conditions; fluctuations in securities prices, interest rates, and foreign currency exchange rates; changes in government regulations; and catastrophic events.

The above list of important factors that may affect future results is not exhaustive. Before making any investment decisions, we encourage you to consider these and other factors carefully. CAMI does not undertake, and specifically disclaims, any obligation to update or revise any forward-looking statements, whether as a result of new information, future developments, or otherwise prior to the release of the next management report of fund performance.
