

Interim Management Report of Fund Performance

for the period ended February 29, 2024

All figures are reported in Canadian dollars unless otherwise noted.

This interim management report of fund performance contains financial highlights but does not contain either the interim financial report or annual financial statements of the investment fund. You can get a copy of the interim financial report or annual financial statements at your request, and at no cost, by calling toll-free at [1 888 888-3863](tel:18888883863), by emailing us at info@cibcassetmanagement.com, by writing to us at 1000, rue De La Gauchetière Ouest, bureau 3200, Montréal, (Québec), H3B 4W5, or by visiting our website at www.renaissanceinvestments.ca or SEDAR+ at www.sedarplus.ca.

Unitholders may also contact us using one of these methods to request a copy of the investment fund's proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure.

Management Discussion of Fund Performance

Results of Operations

CIBC Asset Management Inc. (referred to as *CAMI*, the *Manager* or *Portfolio Advisor*), AllianceBernstein Canada, Inc. (referred to as *AllianceBernstein*) and Canso Investment Counsel Ltd. (referred to as *Canso*) provide investment advice and investment management services to CIBC Canadian Fixed Income Private Pool (referred to as the *Pool*). The investment style and the percentage of the portfolio allocated to CAMI and these portfolio sub-advisors are outlined below. The portfolio allocation may change from time to time.

- CAMI: Fixed Income Core, approximately 50%
- AllianceBernstein: Fixed Income Core Plus, approximately 35%
- Canso: Corporate Credit, approximately 15%

The commentary that follows provides a summary of the results of operations for the six-month period ended February 29, 2024. All dollar figures are expressed in thousands, unless otherwise indicated.

The Pool's net asset value increased by 8% during the period, from \$424,734 as at August 31, 2023 to \$457,965 as at February 29, 2024. Net sales of \$16,388 and positive investment performance resulted in an overall increase in net asset value.

Premium Class units of the Pool posted a return of 3.4% for the period. The Pool's benchmark, the FTSE Canada Universe Bond Index (referred to as the *benchmark*), returned 3.6% for the same period. The Pool's return is after the deduction of fees and expenses, unlike the benchmark's return. See the section *Past Performance* for the returns of other classes of units offered by the Pool.

Despite facing significant volatility, longer-term bond yields moved lower over the period. Markets started to gain confidence that the US Federal Reserve Board (referred to as the *Fed*) and the Bank of Canada (referred to as the *BoC*) were at the end of their monetary policy tightening cycles. This led investors to anticipate interest-rate reductions in 2024.

Both the Fed and the BoC elected to leave their policy rates unchanged at 5.25%–5.50% and 5.0%, respectively, to support efforts to bring inflation back to their 2% targets.

The cost of housing continued to be a key factor keeping inflation levels elevated. Increased housing demand and reduced supply have caused rent prices to soar. Additionally, Canadian mortgage borrowers continued to feel the shocks of higher mortgage rates.

The Canadian yield curve, defined as the difference between 2-year and 30-year bond yields, steepened as short-term interest rates declined more than 30-year bond yields. Canadian bonds outperformed US bonds partially as the result of stronger-than-anticipated US economic data. Inflation continued to cool in both countries, but recent data was higher than expected. At the end of the period, futures markets were pricing in four interest rate cuts from both the Fed and the BoC over the next 12 months, with the first expected in July.

Corporate bonds outperformed as credit spreads (the yield differential between securities of similar maturity but different credit quality) continued to narrow. This narrowing of yield spreads reflected strong demand for riskier assets, lower new-issuance supply, and better-than-anticipated profitability and credit fundamentals. Despite record bond issuance to start the year, demand continued to outpace supply for new issuance.

In the Pool's Fixed Income Core component, positioning within the corporate bond sector detracted from performance as spreads narrowed. Yield curve positioning also detracted from performance given an overweight allocation to the 20-year portion of the curve. Underweight allocations to the 2-year and 30-year parts of the yield curve also detracted from performance. A holding in Government of Canada (referred to as *GoC*, 2.0%, 2051/12/01) was another detractor.

Overweight allocations to provincial, municipal and federal agency bonds contributed to performance in the Fixed Income Core component. Security selection also contributed to performance, particularly within US treasuries and CPPIB Capital Inc. Some of the larger individual contributors to performance included holdings issued by PSP Capital Inc., Municipal Finance Authority of British Columbia and the Province of Manitoba.

CAMI added a new holding in Province of Saskatchewan (5.0%, 2037/03/05). A cross-market tactical transaction was made to reduce exposure to the long end of the Canadian government yield curve in

favour of cheaper US treasuries. This transaction increased an existing holding in US treasury (4.125%, 2053/08/15) and reduced a holding in GoC (2.75%, 2048/12/01).

CAMI eliminated a holding in GoC (2.75%, 2024/08/01) as the bond is nearing maturity and is no longer part of the benchmark. Province of Saskatchewan (3.9%, 2045/06/02) was trimmed.

In the Pool's Fixed Income Core Plus component, yield curve positioning was the largest detractor from performance, while positioning in Canadian banks also detracted.

Off-benchmark allocations to eurozone investment-grade and high-yield corporate bonds contributed to performance in the Fixed Income Core Plus component. A modest allocation to US investment-grade corporate bonds also contributed to performance, as did security selection within Canadian provincial bonds. The component's overweight duration (sensitivity to changes in interest rates) contributed as well. Holdings in the Province of Ontario was a top contributor to performance.

AllianceBernstein added new holdings in emerging markets sovereign bonds in the new-issues market. Exposures to the Province of Alberta and Province of Saskatchewan were increased amid an improved fiscal outlook. Regarding duration, the component's overweight allocation was increased as yields rose. This allocation serves as a hedge against the component's credit exposure. Canadian corporate bond exposures focused on more-defensive sectors were also increased.

An emerging markets corporate bond holding was eliminated to take profits. As spreads between BB-rated and BBB-rated bonds tightened amid expectations of slower growth, exposures to high-yield corporate bonds were trimmed.

In the Pool's Corporate Credit component, allocation to government bonds and an underweight exposure to credit detracted from performance as spreads narrowed. The component's cash positioning, made up of federal government bonds, was increased to take advantage of future investment opportunities. This allocation detracted from performance. A convertible bond holding issued by Air Canada (4.0%, 2025/07/01) also detracted as the bond's price fell alongside the issuer's publicly traded stock.

Security selection in foreign and high-yield bonds contributed to performance in the Corporate Credit component, as did selection in limited recourse capital notes. An overweight allocation to Canadian long-duration bonds in the energy and communication services sectors also contributed to performance. Travel-related bonds issued by Air Canada, American Airlines Group Inc. and LATAM Airlines Group SA contributed to performance as spreads narrowed. Long-duration bonds issued by Enbridge Inc., Pembina Pipeline Corp. and Rogers Communications Inc. benefited from tightening spreads and declining yields at the long end of the Canadian yield curve. These holdings also contributed to performance.

Canso added new covered bond holdings issued by The Toronto-Dominion Bank (4.516%, 2027/01/29) and Royal Bank of Canada (4.256%, 2026/12/21). A new issue from American Airlines Inc. (8.5%, 2029/05/15) was also added to the component at an attractive spread. Soon after this purchase, the holding was opportunistically trimmed to take advantage of a rebound in its price. Low-coupon discount GoC

bonds and GoC real return bonds were increased to bolster liquidity and as a hedge against inflation.

A holding in Spirit AeroSystems Holdings Inc. (7.5%, 2025/04/15) was eliminated, decreasing the component's high-yield exposure. Several GoC bonds were sold for liquidity purposes or for reinvestment into different bonds. Canso eliminated a holding in a first mortgage bond issued by Bankers Hall L.P. (4.377%, 2023/11/20) upon its maturity. UBS Group AG bonds (formerly Credit Suisse Group AG) were sold after they had significantly rebounded in price.

Recent Developments

The level of geopolitical risk disrupted the global economy and financial markets in unprecedented and unpredictable ways. This has resulted in significant volatility and uncertainty in financial markets. It is unclear what further actions may be taken by governments and the resulting impact on global economies, businesses and financial markets. Inflation has increased in many markets across the globe, leading central banks to raise interest rates in order to counter rapidly rising prices. These factors may adversely affect the Pool's performance. The Manager continues to monitor ongoing developments and the impact to investment strategies.

Related Party Transactions

Canadian Imperial Bank of Commerce (referred to as *CIBC*) and its affiliates have the following roles and responsibilities with respect to the Pool, and receive the fees described below in connection with their roles and responsibilities.

Manager, Trustee, and Portfolio Advisor of the Pool

CAMI, a wholly-owned subsidiary of CIBC, is the Pool's Manager, Trustee, and Portfolio Advisor. As Manager, CAMI receives management fees with respect to the Pool's day-to-day business and operations, calculated based on the net asset value of each respective class of units of the Pool as described in *Management Fees*.

The Manager pays the Pool's operating expenses (other than certain Pool costs) in respect of the classes of units of the Pool (except Class O unit), which may include but are not limited to, operating and administrative costs; regulatory fees; audit, and legal fees and expenses; trustee, safekeeping, custodial, and any agency fees; and investor servicing costs and costs of unitholder reports, prospectuses, Fund Facts, and other reports, in exchange for the Pool paying a fixed rate administration fee (plus applicable GST/HST) to the Manager with respect to those classes of units. For Class O units, no fixed administration fee will be charged. The Manager pays the Pool's operating expenses (other than certain Pool costs) allocated to Class O units of the Pool. The fixed administration fee payable by the Pool, may, in any particular period, exceed or be lower than the expenses we incur in providing such services to the Pool.

As Trustee, CAMI holds title to the Pool's property (cash and securities) on behalf of its unitholders. As Portfolio Advisor, CAMI provides, or arranges to provide for, investment advice and portfolio management services to the Pool. CAMI also compensates dealers in connection with their marketing activities regarding the Pool. From time to time, CAMI may invest in units of the Pool.

Distributor

Class C and I units of the Pool may be purchased only through CIBC Wood Gundy, a division of CIBC World Markets Inc. (referred to as *CIBC WM*). Class SM units of the Pool are available for purchase by mutual funds, asset allocation services or discretionary managed accounts offered by the Manager or its affiliates. Other classes of units of the Pool may be purchased through dealers and other firms, including CAMI's related dealers such as the CIBC Investor's Edge discount brokerage division of CIBC Investor Services Inc. (referred to as *CIBC ISI*), the CIBC Imperial Service division of CIBC ISI, and CIBC WM. CIBC ISI and CIBC WM are wholly-owned subsidiaries of CIBC. CAMI may pay sales commissions and trailing commissions to the dealers in connection with the sale of units of the Pool. These dealers and other firms may pay a portion of these sales commissions and trailing commissions to their advisors who sell units of the Pool to investors.

Brokerage Arrangements and Soft Dollars

The Portfolio Advisor or any portfolio sub-advisors make decisions, including the selection of markets and dealers and the negotiation of commissions, with respect to the purchase and sale of portfolio securities, certain derivative products and the execution of portfolio transactions. Brokerage business may be allocated by the Portfolio Advisor or any portfolio sub-advisor(s) to CIBC WM and CIBC World Markets Corp., each a subsidiary of CIBC. CIBC WM and CIBC World Markets Corp. may also earn spreads on the sale of fixed income securities, other securities, and certain derivative products to the Pool. A spread is the difference between the bid and ask prices for a security in the applicable marketplace, with respect to the execution of portfolio transactions. The spread will differ based upon various factors such as the nature and liquidity of the security.

Dealers, including CIBC WM and CIBC World Markets Corp., may furnish goods and services, other than order execution, to the Portfolio Advisor or any portfolio sub-advisor(s) when they process trades through them. These types of goods and services for which the Portfolio Advisor or a portfolio sub-advisor may direct brokerage commissions are research goods and services and order execution goods and services, and are referred to in the industry as "soft-dollar" arrangements. These goods and services received through soft dollar arrangements assist the Portfolio Advisor or any portfolio sub-advisor(s) with investment decision-making services for the Pool, or relate directly to the execution of portfolio transactions on behalf of the Pool. As per the terms of the portfolio advisory agreement and portfolio sub-advisory agreements, such soft dollar arrangements are in compliance with applicable laws.

During the period, the Pool did not pay any brokerage commissions or other fees to CIBC WM or CIBC World Markets Corp. Spreads associated with fixed income and other securities are not ascertainable and, for that reason, cannot be included when determining these amounts.

Pool Transactions

The Pool may enter into one or more of the following transactions (referred to as the *Related Party Transactions*) in reliance on the

standing instructions issued by the Independent Review Committee (referred to as the *IRC*):

- invest in or hold equity securities of CIBC or issuers related to a portfolio sub-advisor;
- invest in or hold non-exchange-traded debt securities of CIBC or an issuer related to CIBC, with terms-to-maturity of 365 days or more, issued in a primary offering and in the secondary market;
- make an investment in the securities of an issuer for which CIBC WM, CIBC World Markets Corp., or any affiliate of CIBC (referred to as a *Related Dealer* or the *Related Dealers*) acts as an underwriter during the offering of the securities or at any time during the 60-day period following the completion of the offering of such securities (in the case of a "private placement" offering, in accordance with the Private Placement Relief Order and the policies and procedures relating to such investment);
- purchase equity or debt securities from, or sell them to, a Related Dealer, where it is acting as principal;
- undertake currency and currency derivative transactions where a related party is the counterparty;
- purchase securities from or sell securities to another investment fund or a managed account managed by the Manager or an affiliate (referred to as *inter-fund trades* or *cross-trades*); and
- engage in in-specie transfers by receiving portfolio securities from, or delivering portfolio securities to, a managed account or another investment fund managed by the Manager or an affiliate, in respect of a purchase or redemption of units of the Pool, subject to certain conditions.

At least annually, the IRC reviews the Related Party Transactions for which they have issued standing instructions. The IRC is required to advise the Canadian securities regulatory authorities, after a matter has been referred to or reported to it by the Manager, if it determines that an investment decision was not made in accordance with conditions imposed by securities legislation or the IRC in any Related Party Transactions requiring its approval.

Custodian

CIBC Mellon Trust Company is the custodian of the Pool (referred to as the *Custodian*). The Custodian holds cash and securities for the Pool and ensures that those assets are kept separate from any other cash or securities that the Custodian might be holding. The Custodian also provides other services to the Pool including record-keeping and processing foreign exchange transactions. The fees and spreads for the services of the Custodian are paid by the Manager. CIBC owns a 50% interest in the Custodian.

Service Provider

CIBC Mellon Global Securities Services Company Inc. (referred to as *CIBC GSS*) provides certain services to the Pool, including securities lending, fund accounting and reporting, and portfolio valuation. Such servicing fees are paid by the Manager. CIBC indirectly owns a 50% interest in CIBC GSS.

CIBC Canadian Fixed Income Private Pool

Financial Highlights

The following tables show selected key financial information about the Pool and are intended to help you understand the Pool's financial performance for the period ended February 29, 2024 and August 31 of any other period(s) shown.

* Ratio has been annualized.

¹ This information is derived from the Pool's audited annual and unaudited interim financial statements.

² Net assets and distributions are based on the actual number of units outstanding at the relevant time. The total increase (decrease) from operations is based on the weighted average number of units outstanding during the period.

³ Distributions were paid in cash, reinvested in additional units of the Pool, or both.

⁴ This information is presented as at February 29, 2024 and August 31 of the period(s) shown.

⁵ Management expense ratio is based on the total expenses of the Pool (excluding commissions and other portfolio transaction costs), incurred by or allocated to a class of units for the period shown, expressed as an annualized percentage of the daily average net asset value of that class during the period.

- ⁶ The decision to waive management fees is at the discretion of the Manager. The practice of waiving management fees may continue indefinitely or may be terminated at any time without notice to unitholders. The management expense ratio before waivers or absorptions includes the fees attributable to exchange traded funds, where applicable.
- ⁷ The trading expense ratio represents total commissions and other portfolio transaction costs before income taxes expressed as an annualized percentage of the daily average net asset value during the period. Spreads associated with fixed income securities trading are not ascertainable and, for that reason, are not included in the trading expense ratio calculation.
- ⁸ The portfolio turnover rate indicates how actively the portfolio advisor and/or portfolio sub-advisor manages the portfolio investments. A portfolio turnover rate of 100% is equivalent to a fund buying and selling all of the securities in its portfolio once in the course of the period. The higher a portfolio turnover rate in a period, the greater the trading costs payable by a fund in the period, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of a fund.

Management Fees

The Pool pays CAMI an annual management fee to cover the costs of managing the Pool. Management fees are based on the net asset value of the Pool and are calculated daily and paid monthly. Management fees are paid to CAMI in consideration for providing, or arranging for the provision of, management, distribution, and portfolio advisory services. Advertising and promotional expenses, office overhead expenses, trailing commissions, and the fees of the sub-advisors are paid by CAMI out of the management fees received from the Pool. The Pool is required to pay applicable taxes on the management fees paid to CAMI. Refer to the simplified prospectus for the annual management fee rate for each class of units.

For Class O units, the management fee is negotiated with and paid by, or as directed by, unitholders or dealers and discretionary managers on behalf of unitholders. Such Class O management fee will not exceed the Class F-Premium unit management fee rate.

The following table shows a breakdown of the services received in consideration of the management fees, as a percentage of the management fees collected from the Pool for the period ended February 29, 2024. These amounts do not include waived fees or absorbed expenses.

Past Performance

The performance data provided assumes reinvestment of distributions only and does not take into account sales, redemption, distribution, or other optional charges payable by any unitholder that would have reduced returns. Past performance does not necessarily indicate how a fund will perform in the future.

The Pool's returns are after the deduction of fees and expenses, and the difference in returns between classes of units is primarily due to differences in the management expense ratio. See *Financial Highlights* section for the management expense ratio.

Year-by-Year Returns

These bar charts show the annual performance of each class of units of the Pool for each of the periods shown, and illustrate how the performance has changed from period to period. These bar charts show, in percentage terms, how much an investment made on September 1 would have increased or decreased by August 31, unless otherwise indicated.

Premium Class Units

† 2016 return is for the period from May 31, 2016 to August 31, 2016.
‡ 2024 return is for the period from September 1, 2023 to February 29, 2024.

Premium-T4 Class Units

† 2016 return is for the period from May 31, 2016 to August 31, 2016.
‡ 2024 return is for the period from September 1, 2023 to February 29, 2024.

Premium-T6 Class Units

† 2016 return is for the period from May 31, 2016 to August 31, 2016.
‡ 2024 return is for the period from September 1, 2023 to February 29, 2024.

Class C Units

‡ 2024 return is for the period from September 1, 2023 to February 29, 2024.

Class I Units

‡ 2024 return is for the period from September 1, 2023 to February 29, 2024.

Class F-Premium Units

† 2016 return is for the period from May 31, 2016 to August 31, 2016.
‡ 2024 return is for the period from September 1, 2023 to February 29, 2024.

Class F-Premium T4 Units

† 2016 return is for the period from May 31, 2016 to August 31, 2016.
‡ 2024 return is for the period from September 1, 2023 to February 29, 2024.

Class F-Premium T6 Units

† 2016 return is for the period from May 31, 2016 to August 31, 2016.
‡ 2024 return is for the period from September 1, 2023 to February 29, 2024.

Class N-Premium Units

† 2016 return is for the period from May 31, 2016 to August 31, 2016.
‡ 2024 return is for the period from September 1, 2023 to February 29, 2024.

Class N-Premium T4 Units

† 2016 return is for the period from May 31, 2016 to August 31, 2016.
‡ 2024 return is for the period from September 1, 2023 to February 29, 2024.

Class N-Premium T6 Units

† 2016 return is for the period from May 31, 2016 to August 31, 2016.
‡ 2024 return is for the period from September 1, 2023 to February 29, 2024.

Class O Units

‡ 2024 return is for the period from September 1, 2023 to February 29, 2024.

Summary of Investment Portfolio (as at February 29, 2024)

The summary of investment portfolio may change due to ongoing portfolio transactions of the investment fund. A quarterly update is available by visiting www.renaissanceinvestments.ca. The Top Positions table shows a fund's 25 largest positions. For funds with fewer than 25 positions in total, all positions are shown. Cash and cash equivalents are shown in total as one position.

<i>Portfolio Breakdown</i>	<i>% of Net Asset Value</i>	<i>Top Positions</i>	<i>% of Net Asset Value</i>
Provincial Government & Guaranteed Bonds	34.9	Canada 5 Year Bond Future, June 2024	3.8

		Municipal Finance Authority of British Columbia, 1.35%, 2026/06/30	0.8
		Government of Canada, 3.25%, 2033/12/01	0.8
		Canada 10 Year Bond Future, June 2024	0.8
		Province of Ontario, 2.25%, 2031/12/02	0.8
		Government of Canada, 5.75%, 2033/06/01	0.8

A note on forward-looking statements

The management report of fund performance may contain forward-looking statements. Forward-looking statements include statements that are predictive in nature, that depend upon or refer to future events or conditions, or that include words such as "expects", "anticipates", "intends", "plans", "believes", "estimates", or other similar wording. In addition, any statements that may be made concerning future performance, strategies, or prospects and possible future actions taken by the pool, are also forward-looking statements. Forward-looking statements are not guarantees of future performance. These statements involve known and unknown risks, uncertainties, and other factors that may cause the actual results and achievements of the pool to differ materially from those expressed or implied by such statements. Such factors include, but are not limited to: general economic, market, and business conditions; fluctuations in securities prices, interest rates, and foreign currency exchange rates; changes in government regulations; and catastrophic events.

The above list of important factors that may affect future results is not exhaustive. Before making any investment decisions, we encourage you to consider these and other factors carefully. CIBC Asset Management Inc. does not undertake, and specifically disclaims, any obligation to update or revise any forward-looking statements, whether as a result of new information, future developments, or otherwise prior to the release of the next management report of fund performance.
